BARCALDINE REGIONAL COUNCIL
Revenue Statement – 2025–26

INTRODUCTION

This Revenue Statement is prepared in accordance with Section 104 (5) of the *Local Government Act 2009* and Section 172 of the *Local Government Regulation 2012*. The Revenue Statement outlines the revenue measures adopted by Barcaldine Regional Council (Council) for the financial year ending 30 June 2026.

DIFFERENTIAL GENERAL RATES

Council levies differential general rates in accordance with Section 80 of the *Local Government Regulation 2012*.

In determining the differential rating categories, Council has taken into account the following factors:

- The rateable value of the land and rates which would be payable if only one general rate was levied.
- The level of services provided to that land and the cost of providing those services compared to the rate burden that would apply under a single general rate.
- The use of the land in so far as it relates to the extent of utilisation of Council's services; and
- The location of the land and the access to services.

The number of visitors, including tourists with caravans and motor homes, to the Barcaldine Region is increasing every year. These visitors have an impact on Council roads, public conveniences, camping areas and the provision of tourist information services.

Accordingly, Council has adopted a system of categorisation for public accommodation facilities based on the number of rooms, sites and/or cabins.

Barcaldine Regional Council is affected by mining and energy development and it has carefully considered the impacts that these particular land uses have on the ability of Council to deliver the desired levels of service to the community.

These impacts include:

- the increase in Council's wage costs in an endeavour to compete with the private sector.
- high levels of staff turnover.
- accommodation difficulties, in terms of both availability and affordability.
- increased visitation by contractors utilising Council services and infrastructure.
- rapid deterioration of public infrastructure.
- the need for additional health, environmental, planning and community services.

BARCADDINE REGIONAL COUNCIL
Revenue Statement – 2025–26

Council has adopted a system of categorisation for these developments to recognise the impacts on the community and Council operations and infrastructure.

UTILITY CHARGES – WATER

Barcaldine Regional Council levies a water utility charge in each community consisting of a water access charge for the infrastructure that supplies the water to each parcel of land. This charge includes a water use allocation. The allocation is based on the estimated water usage of each property.

A water utility charge is also applied to a parcel of land that is located within a designated town area and that is not connected to Council's water supply network but which has the ability to access the water supply network. This charge is 50% of the connected rate.

Council provides water to some parcels of land outside a designated town area. These parcels are levied a water utility charge at the same rate as a private residence.

Where a rates assessment comprises more than one parcel of land, the first parcel will attract the applicable water utility charge according to the use. The second and subsequent parcels of land on the same assessment will each attract an additional water charge at 50% of the private residence rate.

BARCALDINE REGIONAL COUNCIL
Revenue Statement – 2025–26

Where a business or land use covers more than one rates assessment, water utility charges will apply as if all parcels of land were on the one assessment. The applicable water allocations for each assessment shall be combined to provide a total water allocation for that business or land use.

Where a business or land use is connected to more than one water meter, the total use is calculated by adding the usage recorded on each water meter.

For the financial year, Council will not charge an excess water charge on consumption in excess of the base allocation nominated in the tables below.

Council will continue to read meters as at 1 June each year.

FEES AND CHARGES

Cost Recovery Fees

Fees for services performed by Council under a Local Government Act will be set at a level which ensures that Council recovers all costs incurred in the provision of those services.

Commercial Fees

All other fees for Council activities will be based on a concept that will reflect full cost recovery including administration plus a small profit margin.

Statutory Fees

The Register of Fees includes fees imposed by State Government legislation applicable to Council.

Community Care Service Fees

Council manages a number of aged care and disability programs on behalf of the State and Commonwealth Governments. Fees for these programs are imposed in accordance with program agreements.

Commercial Business Fees

Council operates a number of business agencies including Bank of Queensland and Australia Post. Fees for these businesses are imposed in accordance with the applicable contracts with these agencies.

Non-Profit Organisations and Local Residents

Barcaldine Regional Council provides concessions to non-profit organisations and local residents based within the Barcaldine Regional Council boundaries for the hire of Council facilities as follows:

- Non-profit organisations – 50% rebate.
- Local residents – 50% rebate.
